

# Mass Cruisers Auto Club

## Crusin' at the speed of fun

### October signals the end of the 2017 Cruise Season

Gone are the soft summer breezes at the beach and those long daylight hours for cruising as we fill these final weeks of autumn with car events until there are no more after Daylight Savings kicks in on November 5. But, October brings on those gorgeous New England foliage displays and sunsets that offer those of us that love to take photographs, ample vistas to backdrop our rides. Unfortunately October also brings out the Registry of Motor Vehicle's idea of photographing our cars with their new camera based inspection systems that has everyone in our hobby nervous about what it could mean to keep our rides on the road. I think everyone agrees unsafe vehicles need to be kept off our highways and unfortunately not everyone takes care of their vehicles as well as most auto hobbyists do. So October 2017 becomes a season of unease in our hobby as this latest "Big Brother" encroachment into our lives unfolds.

Only 17 states have a periodic annual or biannual safety inspection programs, 10 of them, including all 6 New England states are along the Northeast Atlantic corridor. The Federal Clean Air acts of 1977 and 1990 imposed emissions testing which, thankfully, are no longer required for 25 year and older vehicles and the advent of computerized OMB II connections on 1988 and newer cars eliminated those dyno sniff test setups. But, if you want to drive your Model T in the annual Veteran's Day Parade, it must have an annual safety inspection sticker and we have been told some poor service station technician, not the owner, who has probably no idea how to drive some of these old timers will now be required to drive it into the inspection bay. It will be interesting to see how this all plays out next spring when everyone gets their cars ready for the 2018 cruise and car show season. Until then enjoy the rest of 2017.

### Celebrating 26 Years of Cruisin'

Volume 26 Issue 10

October 2017

We're on the Web

[www.masscruisers.com](http://www.masscruisers.com)

And Facebook

Our last two cruises in October signal the end of what has been a very successful cruise and car show season for 2017. As we head into the winter of the gearhead's season of discontent, thoughts of repair and upgrades dance in our heads. To that end we want to invite guest speakers to our monthly meetings that can help and inspire us to find new projects to work on.

This past April we had a guest speaker, Monkey Wraps, showing us how these new vinyl wraps allow us to change the appearance of our cars without the huge expense of a new paint job. During the cruise season, former Cruise Award winning 1963 Dodge Dart GT owned by Mike Toupin had a total chameleon color wrap performed and it can often be seen parked in the berm area between Lots 15 & 16 at our Bass Pro Shops cruise. So, if you've got an idea for a guest speaker at one of our off-season monthly meetings, let me know so I can add them to my agenda. Of course you will be responsible for coordinating their planned attendance at the meeting.

On another note....Hopefully everyone got their ride inspected before the new inspection station systems and procedures were implemented on October 1. If not, and you have experienced the new safety system procedures with your antique vehicle or hot rod, the Massachusetts Association of Auto Clubs (MAAC) would like to hear about your experience, good or bad. MAAC has their annual fall quarterly meeting scheduled for **Thursday October 19 at 7:00 PM** downstairs in the Bass Pro Shops Conservation Room (next to the MEN's rest room). Anyone interested in our hobby can attend this meeting.

How about a third note? The end has finally come for the South Shore Antique Auto Club's annual Trading Bee at the Xfinity Center in Mansfield following three years of heavily tariffed and regulated conditions imposed by the Town of Mansfield. The SSAAC members have also aged and had difficulty getting additional help despite the continued growth of this popular event. Up until now, there were persistent rumors

that this year was the last year for the Trading Bee and as a result our Mass Cruisers Auto Club had toyed with the idea of conducting our own flea market at the Wrentham Development Center. Well, with Carl Webber's announcement after 45 years of management of the Trading Bee, our club has decided to become more serious about considering his invitation for some other club to take over their time slot. Stay tuned as your Board of Directors meets to evaluate the possibility for 2018.

Monthly Cruisin

# September 14 Cruise Winner

## 1931 Marmon Big 8 Sports Coupe

Every now and then a very special car from the 1930 classic era shows up at our cruise night and the September 14 cruise was very special in that regard when Mark Hurwitz, technical editor of MESH magazine pulled into Patriot Place towing a trailer with a very rare and special car inside, 1 of 5 or 6 Marmon Sports Coupes known to have been built in the 1930 - 1933 era at which point the Marmon company ceased traditional automobile production and ventured into production of Marmon-Harrington 4 x 4 all wheel drive military refueling trucks. As rare a sight as the Marmon automobile is, to see one driving into our cruise night was a real treat. Of course driving the Marmon from its home in Barre, MA, a two hour drive away at Interstate highway speeds, let alone driving back home again in the dark would be out of the question.

Mark's Harmon Coupe is powered with a straight 8 315 cu. in. 130 HP engine backed with a 4 speed tranny with partial synchromesh for two gears. It is painted using the original colors - tri-tone green. The coupe was originally restored in 1984 and came into Mark's care in 2014 when he started a two year cosmetics refresh complete with mechanical upgrades. Other features include optional wire wheels, side mount spare tires with metal covers, a rumble seat, trunk with trunk rack, golf club compartment, burlled and finely polished back walnut dash panel, mohair upholstered seating, fine Wilton wool floor carpeting, tinted glass visors, roll down rear window, rear and side window shades, cable actuated side hood vents, heater; phew!

Needless to say the Marmon is fresh off its September 3 pre-war class win at the Sunday in the Park Concours d'Elegance and Gathering of the Marques at Lime Rock Park in Connecticut so becoming the Vintage Motorsports sponsored cruise night selection was a no brainer for our judges.

# MOTORS & MANSIONS

By John Buchanan

Part of the enjoyment I get in driving my cars is to find new cruise venues, visit some of my favorite cruise haunts and occasionally throw in a different car show to attend. One new cruise venue I got hooked on this year are the monthly "Cars and Coffee" cruises that the Audrain Automobile Museum in Newport hosts in conjunction with the Preservation Society of Newport County which prefers to call it "Motors and Mansions". What sets this cruise apart though is the opportunity to park your car on the grassy expanse of some of the famous Newport Mansions along Bellevue Avenue. My first "Cars and Coffee" cruise was to the Elms back on July 22 and most recently the Chateau-sur-Mer (Château at sea) on Saturday Sept. 9. The Chateau-sur-Mer, completed in 1852, was the first of the grand Bellevue Avenue mansions built during the Gilded Age.

Unlike most Cars & Coffee cruises I've attended, the coffee and pastries, donated by the Brewed Awakenings CoffeeHouse of Johnston, Warwick & Wakefield are not free, but the money raised is used to benefit the Audrain Museum. Although entry to these cruises is free, they do request reserving online for each cruise so they have an idea of the number of cars attending.

The scheduled October 21 cruise to the Marble House mansion is the final one of the 2017 season and one which I was hoping other club members may want to share so I had planned on repeating another visit

The July 22 "Cars and Coffee" cruise event at the "Elms" mansion in Newport provided a great photo backdrop.

to the Newport Car Museum in Portsmouth followed by lunch on Bristol Harbor on the road back home. I am not only hooked on cruising down to Newport for a chance to drive my car along Bellevue Avenue and Ocean Drive, I'm hooked on the Brewed Awakening's coffee and the opportunity to drive those race courses in my dream super car at the Newport Car Museum.

# Old Orchard Beach Weekend

By John Buchanan

Conflict this year among the Mass Cruisers choosing between the long standing 15 year tradition of cruising up to Old Orchard Beach for the 24th Annual Friday night cruise along West Grand, attending the Saturday Car Show at Memorial Park, then leisurely cruising back down U.S. Route 1 to the Arundel Flea Market followed by waterfront lunch at the Arundel Wharf Restaurant in nearby Kennebunkport or, attend the NSRA Northeast Nationals in Burlington, VT. Having cruised to the NSRA Nationals in Louisville for my first time in August, my pick was Old Orchard Beach on the Gulf of Maine rather than Burlington on Lake Champlain. I love walking the beach in the morning that once hosted auto racing back in 1911 not long after the famed Ormond/Daytona Beach racing began in 1905. The two-mile walk down and back on the beach is good cardio exercise for me but, more important, is being rewarded with an Ocean Park Sub & Grocery acclaimed cinnamon bun for the effort.

Old Orchard Beach Street leading down to the famous pier is blocked off around 1 pm on Friday and the cars, everything from classic Model T's to rat rods, starts filling up, six wide, and spilling over to the side streets and parking lots. The cruise doesn't begin until the 7:35 PM "Downeaster" passenger train departs the station for Portland leaving the rail crossings clear for safety sake. Then hundreds of cars cruise along East and West Grand led by a police escort.

The Saturday car show is organized and run by the Chamber of Commerce to benefit the OOB Call Fire Department, which club members Lou & Linda Valentine have helped for more than 20 years. This is how

Old Orchard Street fills with cars for the Friday night cruise along E. & W. Grand

Mass Cruisers set up under one of the Memorial Park trees to relax & schmooze

Hugh Leahey's 1923 T-Bucket takes 1st Place in Class G Hot Rods (up to 1960) That's Dave Sareault's 1932 High Boy Roadster parked next to Hugh's T-Bucket

our club started this annual tradition. And we have Lou to blame for it, although Cruise Meister Steve Huntington does a great job organizing and leading the cruise and activities for us each year. New member show attendees, Hugh & Karen Leahey, came away with a 1st place trophy in Class G, Street Rods (through 1960) for Hugh's 1923 T-Bucket. Celebration at the Yellow Fin Restaurant in Ocean Park for dinner followed later on before packing it in to get ready for the Sunday cruise back home that included those stops at MotorLand, the Arundel Flea Market, lunch at the Arundel Pier Restaurant in Kennebunkport followed by a walking tour of the nearby shops.

Standing at the top of the Pier from left to right are: Jean Lestan, Annie & Steve Huntington, Larry & Barbara Nyborn

the Arundel Flea Market, lunch at the Arundel Pier Restaurant in Kennebunkport followed by a walking tour of the nearby shops.

# Good News Article About Young Men

By Diane Thornton

Autofest 2017 was successful. Why? Was it wonderful weather? Great advertising and getting the word out? A firetruck parade? Beaming smiles from every Mass Cruiser who volunteered?

Who knows what ‘the key’ was. But there was an enormously improved number of car participants and individual show participants! We’ll take it! We’ll try to repeat everything again next year and continue to make improvements!

One piece of the success this year was a new endeavor – the Engine Build Off. The mechanical talents of young men from area Technical High Schools were on public viewing in a timed race. Each team of two knew they needed to tear down and then reassemble the small engine in front of them...and that the engine needed to run again!!

Bob Hines and other Cruiser members worked out details over the “off season”. Engines were bought and tested. Rules were devised. Tents and tables were acquired and set up on the day of the show. Bob and his crew manned the “live” event and made sure all rules and safety details were followed. The four teams were greeted and were given the checklist of what they would be graded on...the end result being to get their engine to START!

## Ready, Set, GO!

They were given the green light to begin! Wait! Did you know that one team was a team of ONE? Southeastern Regional Vocational Technical High School student, John Goldberg was expecting his teammate, but started without him...and eventually got the word that he was going solo for the entire build. The three teams from Blue Hills Regional Technical School were wrenching away beside John, but as you can imagine, John was falling a little behind.

The feel-good news out of this event was not the young men’s mechanical talent. That small tent between the Stage and the food tent ended up showcasing some real, feel-good moments!

After they had assembled their engine, a team from Blue Hills, Mark DeCristoforo and Brendon Lima (seen in the photo as the winners of the Build Off competition), became the “team” for John Goldberg. They assisted and helped John finish his engine. An unexpected demonstration of “wrenchers uniting”!

This exhibition of friendly support and comradery was certainly heartwarming and what anyone would want to witness in young men and women. John, who was pictured with his arm around his invisible teammate, made an impression on spectators because of his calm, cool, determined nature during the whole event. His great smile and willingness to dig in without complaint was wonderful and a little inspiring. The Blue Hills boys, Mark and Brendon, were also inspiring in stepping up to lend help to their “rival” – without any acrimony or sourness – it’s uplifting to witness just honest, good men.

# The Creeps Car Show in Cumberland, RI

By Diane Thornton

Three intrepid Mass Cruisers (Diane,- Yours Truly - Wayne Lestan and Steve Huntington) enjoyed a car show put on by The Creeps on a gorgeous September 9 Saturday!

Good vibes, good tunes! Very creative cars, bikes, bicycles, pedal cars, trophies! Pin-up girls! Fun stuff! An excellent event!

Pictures by Steve Huntington

# 2017 Food Pantry Update

By John Buchanan

Ralph Chadsey's Food Pantry Team members continue their hard work at the front entrance of our Bass Pro Shops Cruises and the cruise car owners continue to support this worthwhile club effort by dropping off non perishable food items and can goods or handing off their \$dollars\$ to Bob Woods as they drive in. Ralph delivered five \$500 checks to each of five local Food Pantries in Walpole, Foxboro, Wrentham, Attleboro and Norfolk in August ahead of the start of schools, one of the peak need times for families in need of additional meals assistance. Almost two tons of non perishable food was also delivered to the pantries as well. These collections will continue up until our last cruise on October 26 so keep them cans and dollars coming for the upcoming Holiday Season.
